The BOMOHSA Group present in Central America for more than 45 years, started its operations in Honduras expanding to Nicaragua and Belize. We are a company specialized in the sale of pumping equipment, control & automation, power transmisión and the agricultural market. Since 2019, we expanded our reach to include the air division covering compressors, blowers and vacuum pumps.

Thanks to our vast experience we deliver optimal solutions in all the products we offer, with a value proposition guaranteed by a sales force of professionals committed to the success of our customers, boasting the largest and most modern specialized workshop in Central America.

We aim to be the leader in everything we do, featuring an ISO 9001 certified company since 2009 leveraging off our corporate values of Integrity, High Energy and Innovation. The BOMOHSA Group is therefore a par excellence partner for its customers for all their industrial, commercial, residential and agricultural needs.

In this brief profile, we look forward to introducing our organization and look forward to supporting you in your upcoming projects.

OUR HISTORY

RESIDENTIAL

COMMERCIAL

AGRICULTURE

INDUSTRIAL

MUNICIPAL

The history of the BOMOHSA Group has been characterized by those same values that have shaped our corporate culture. - Since its inception, in which we were the pioneers of the market, we have been a company that offers professional services exclusively for the pumping market, to the present day, we have managed to stand out for our numerous innovations.

Being at the forefront of what we do has not been limited to the introduction of novel products, but in a way to serve the market, innovating processes, methods and strategies of support and service. We have raised the bar by setting the standards in customer service and therefore, they can now expect more from their suppliers for pumps and related products.

In BOMOHSA we went first and kept doing better.

AGRICULTURAL MARKET

RESIDENTIAL

COMMERCIAL

AGRICULTURE

INDUSTRIAL

MUNICIPAL

Our region is strongly agricultural. BOMOHS A group has served this market in all its facets, both coffee, livestock, corn and much more. We enjoy leading brands in the world such as Honda equipment, industrial processing machines La Macarena and Maqtron, specialized pumps for irrigation as well as many complementary equipment.

We highlight some of the most represented products:

Gasoline Engine
HONDA

Honda manufactures 4-stroke, gasoline-powered engines which offer great fuel economy, easy start-up, emit little noise and require little maintenance.

Ecological Coffee processing equipment
Belcosub 1000

Reduce pollution by more than 90%. Reduce water consumption, also facilitates the use of mucilage in animal feed.

Brush Chopper
2 Toneladas

These brush choppers grind green products (cane, elephant grass and cassava) with excellent uniformity and have great productive capacity. It is an economical solution to Feed your livestock with higher yields.

Barnes Pressure Pump
with KAMA Engine

A regional favorite for Surface water extraction applications, filling of elevated tanks, Supply of clean water, washing of stables, sprinkler irrigation and other applications.

Mill #6
The Macarena

For the making of the famous honduran corn tortillas, we offer La Macarena Corn Mill Grinders with imported funnels and bigger discs.

Semi-Integrated
The Macarena

Semi-Integrated coffee pulpers with horizontal centrifugal cylinder that allows a more uniform coffee classification built of corrosion resistant materials.
